

## A Miss Of You

Dead Moon

I used to be so, so down  
I thought I had been changed  
So when I found you were running around  
I too tried to play that game  
I know the way now  
This time it won't take long

We used to run around two by two  
We tried to break our hearts  
And in the mornin' when the corners are jaded  
I too began to fall apart

So if I seem unable to cope  
It's for a miss of you  
If what we were was only for once  
You were always worth the view
