

Come Inside

Dead or Alive

We all know
That love is blind
And it grows from deep affection
While we all hide our feelings
While we search for some protection

And you don't know
What on earth to do
And what I'd like to do
Is offer me to you

(Chorus)
Come inside
My love is open wide to you
Come inside
I've got a place that I've been saving specially for you

Nobody said it would be easy for you
To find someone who cares
But there's someone waiting patiently
Who'd be glad to have you there

But you don't know
What on earth to do
But what I'd like to do
Is be the one you choose

(Chorus)

And you don't know
What on earth to do
And what I'd like to do
Is offer me to you
