Come Inside

Dead or Alive

We all know That love is blind And it grows from deep affection While we all hide our feelings While we search for some protection

And you don't know What on earth to do And what I'd like to do Is offer me to you

(Chorus)
Come inside
My love is open wide to you
Come inside
I've got a place that I've been saving specially for you

Nobody said it would be easy for you To find someone who cares But there's someone waiting patiently Who'd be glad to have you there

But you don't know What on earth to do But what I'd like to do Is be the one you choose

(Chorus)

And you don't know What on earth to do And what I'd like to do Is offer me to you
