

## Getting It On

## Dead or Alive

I can't believe you would turn your back on me,  
Thought were mine eternally, but you  
proved me wrong,  
Party in the street, rockin' to the beat,  
(party, party)  
That's the last time I saw you,...

\*Photographs, a goodbye note, "see you round"  
was all you wrote,  
Something's dying here, beetween you and me,...

\*\*You've been gone too long, gone too long,  
And I just can't keep hangin on forever,  
We should be together, right now!  
You've been gone too long, gone too long,  
And I just can't keep hangin on forever,  
We should be together, right now!

I believed in us, love like this was meant to be,  
And now you leave me here alone, your heart was my home,  
Shining in the crowd standing tall and proud  
(shining, shining)  
Tell me, what did I do wrong?,...

\*Repeat

\*\*Repeat

What you gonna do when you call my name  
From the south of Spain, and want me  
back again,  
What you gonna do when you miss my lips, and  
my tender kiss,  
Will it make you trip, will it make you trip,  
And I keep saying,...

\*\*Repeat

There's a party in the street, you were rocking  
to the beat,  
Thats the last time I saw you.

Getting It On

(Instrumental)
