

Gone 2 Long

Dead or Alive

I can't believe
You would turn your back on me
Thought you'd be mine eternally
But you proved me wrong

Party in the street
Rockin' to the beat
(Party, party)
That's the last time I saw you

**Photographs, a goodbye note
"See you round" was all you wrote
Something's dying here
Between you and me

*You've been gone too long
Gone too long
And I just can't keep
Hangin on forever
We should be together

*Repeat

We should be together

I believe in us
Love like this was meant to be
And now you leave me here alone
Your heart was my home

Shining in the crowd
Standing tall and proud
(Shining, shining)
Tell me, what did I do wrong

**Repeat
*Repeat 4 times

What you gonna do
When you're by yourself
All alone at night
When you call my name
And want me back again
I'll come back again, oh

What you gonna do
When you miss my lips
And my tender kiss
Will it make you trip, oh
Will it make you trip

*Repeat 3 times with following riff

You're makin' me cry again
I'm not gonna die again

Forever, forever together

You've been gone too long
Gone Too Long
And I just can't keep
Hangin on
We should be together

***There's a party in the street
And you're rockin' to the beat
That's the last time I saw you

***Repeat 2 times
