

# I Don't Wanna Be Your Boyfriend

Dead or Alive

My life is boring  
I couldn't get to sleep I wanted more things  
So, I looked in your eyes 'cause they were staring  
But baby, you have gone and got me wrong  
I'm in a danger  
'Cause I'm not into falling for a stranger  
I couldn't love you, even if I tried to  
But baby, you have gone and got me wrong  
It was your lucky day  
You should be happy that I looked your way  
It's just a game, you'll remember my name  
Wow, your life's gonna change  
(Love can be strange)  
Come to me at night time  
'Cause when the sun goes down, you know that's my time  
And anytime you're with me that's a nice time  
But baby, you have gone and got me wrong  
Don't think you're a special one  
I was looking for a night of fun  
And you were right there, you had loves stuff to share  
But don't think that I care, na, na, na, na  
Don't think I care  
You got me wrong, you got me wrong  
I, oh I, don't wanna be your boyfriend  
I, oh I, don't wanna be your boyfriend  
I got your attention  
But what is on my mind, I got to mention  
That everywhere we go people are saying  
But baby, you have gone and got me wrong  
This is love on the run  
Don't think you're the special one  
Just have a good time, the pleasure's all mine  
Don't tell me no more lies, don't tell no lies  
You got me wrong  
You got me wrong  
You got me wrong  
You got me wrong  
I, oh I, don't wanna be your boyfriend  
I, oh I, don't wanna be your boyfriend  
This is your lucky day  
You should be happy that I looked your way  
It's just a game, you'll remember my name  
Wow, your life's gonna change  
(Love can be strange)  
You got me wrong  
You got me wrong  
You got me wrong  
You got me wrong  
I, oh I, don't wanna be your boyfriend  
I, oh I, don't wanna be your boyfriend  
Tune in, turn on, drop out  
You've got a happy face  
Tune in, turn on, drop out  
You've got a happy face  
Tune in, turn on, drop out  
You've got a happy face  
Tune in, turn on, drop out

You've got a happy face  
Tune in, turn on, drop out
