

Sleep with You

Dead or Alive

Sleep With You

Yes I do babe!

I recall the first time that I saw you,
It was plain to me, you'd been around,
Dreaming of your kiss for far too long now,
You have turned my whole world upside down...

But the burn! When you're near,
Tells me danger's here!

I want to sleep with you (sleep with you),
One night together,
I want to be your man (be your man),
Take you to heaven.

I really thought that when love came to me,
It would come with flowers, bells, and poetry,

But the burn! When you're near,
Tells me danger's here!

I want to sleep with you (sleep with you),
One night together,
I want to be your man (be your man),
Take you to heaven.
I want to sleep with you (sleep with you),
Two nights together,
I want to be your man (be your man).
Together, forever in heaven together.

Together, forever in heaven together. (Repeat x 4)
