

Spend the Night Together

Dead or Alive

This time, I really can't win
I must be out of my mind
And I know, that fools rush in,
It's kind of nice to be unhappy

We gotta spend the night together
(Spend the night)
I need you more than ever (need you more)
I got a thing for you (thing for you)
Look what you've driven me to...

And so I fear
An imminent attack upon my heart my dear
I was happy, as one,
But my number was wrong...

We gotta spend the night together,
(Spend the night)
I need you more than ever, (need you more)
I got a thing for you (thing for you)
Look what you've driven me to...

You've got everything! (Everything)
A little trouble in paradise,
I should be careful, it's time to be smart
But I've always wanted, someone like you...

Oh! I know, you've got a reputation
But I'd like to know more
You could be what I've been looking for...

We gotta spend the night together,
(Spend the night)
I need you more than ever, (need you more)
I got a thing for you (thing for you)
Look what you've driven me to...
