

Then There Was You

Dead or Alive

What a dizzy spin
My whole spirit was in
All my blue skies
They had turned to grey
And I had money
Enough to burn
So why did I all sing the blues
When suddenly

(Chorus)

Then there was you Then there was you I looked around
Look what I found
Out there
Then there was you
Then there was you
What was I supposed to do

I was all alone
In a crowded room
I never thought I'd get the chance
To rip it up with you
I was dancing here
all by myself
I never thought I'd get the chance
To dance with someone else

(Chorus)

But you promised
You promised
You'd never go away
But you promised
You promised
Here's where you came

I had money
Enough to burn
So why did I still sing the blues
When suddenly
