

# Turn Around and Count 2 Ten

Dead or Alive

Turn up your radio now  
I'm calling out your name

Feel it, feel it, feel it  
Feel it, feel it, feel it  
Feel it, feel it, feel it  
Feel it, feel it, feel it

So turn around and count to ten  
Before you lose the only one who really loves you  
Somebody who likes you just as you are  
Now how you might have been, oh baby

When you turn around again  
I might be with someone else who really loves me  
And now I'll say, what I don't want to say  
I'll have you back again, I want you back

We've both been acting strangely  
And you can hardly face me  
And I can see no fire in your eyes  
We both know the answer  
But one of us won't say it  
Love's the only game in town  
You sure know how to play it

The future of our love is on the line  
The both of us could lose more than we find

So turn around and count to ten  
Before you lose the only one who really loves you  
Somebody who likes you just as you are  
Now how you might have been, oh baby

When you turn around again  
I might be with someone else who really loves me  
And now I'll say, what I don't want to say  
I'll have you back again, I want you back

And if we think about it and come to the conclusion  
That I want you, and you want me, we've come to the solution  
And I cannot deny it, you were my perfect lover  
If paradise is half as nice, I'd never find another

And now it's time, for making up your mind  
The future is ahead don't look behind

So turn around and count to ten  
Before you lose the only one who really loves you  
Somebody who likes you just as you are  
Now how you might have been, oh baby

When you turn around again  
I might be with someone else who really loves me  
And now I'll say what I don't want to say  
I'll have you back again

I want your love in my hands where I can feel it  
Love in my heart, where I can keep it warm  
Turn up your radio now  
I'm calling out your name

Feel it, feel it, feel it, feel it  
Feel it, feel it, feel it, feel it

The love we've got cannot be left behind  
It's time for you to tell me that you're mine

So turn around and count to ten  
Before you lose the only one who really loves you  
Somebody who likes you just as you are  
Now how you might have been, oh baby

When you turn around again  
I might be with someone else who really loves me  
And now I'll say, what I don't want to say  
I'll have you back again

I want you back in my life where I can hold you  
Back in my dreams, where I can keep you warm  
Here on my lips where I can  
Taste your candy kiss
