

What Have U Done (2 Make Me Change)

Dead or Alive

I can't believe the changes
That you're making in my life
Like a storm you blew in
Showed me how to live
Something had to give
The simple life, the endless nights
The danger zone, my mind is blown

*What have you done
To make me change
What have you done
What have you done
To make me change
What have you done

I'm on the town, everyone's alarmed
I'd rather be at home and in your arms
Where I belong, what is going on
The party boy is gone
He's safe and warm in love with life
But he still shines on special nights

*Repeat

Enjoy this time
'Cause more things change
And I'll be on the road again
Where I belong, the endless nights
The danger zone, my mind is blown

*Repeat

You better open up and let
Let your loving in
Open up and let
Let the thing begin
Open up and let
Let your loving in
Open up and let
Let your loving in

I'm on the town, everyone's alarmed
I'd rather be at home and in your arms
Where I belong, what is going on
Tell me if you can

The simple life, the endless nights
The danger zone, my mind is blown
He's safe and warm, in love with life
But he still shines on special nights

*Repeat 2 times

**What have you done
What have you done to me
What have you done
What have you done to me

**Repeat
*Repeat 2 times
