

# Your Sweetness (Is Your Weakness)

Dead or Alive

Tell me what am I doing standing here  
You can't look me in the eye  
Every new face  
That they let in through the door  
Might be added on to your score

You tell me that it is just physical  
You cannot fight the way you feel  
It gets so hard for me  
To keep you to myself  
You're mine, you're mine, you're mine  
You're mine, you're mine

What are we waiting for  
Tell me what are we waiting for  
What are we waiting for  
There's trouble on the dance floor

Someone else has taken what's mine  
Someone else has captured  
Your attention and time  
And your sweetness is your weakness  
Someone else has taken what's mine  
I know what you're thinking'  
By the look in your eye  
Babe, your sweetness is your weakness

Is this payment for a former life?  
In another place and time  
You're like honey  
For the bees that fly around  
Attractive to the ground

You've got to tell me what you feel for me  
It could make me feel so real  
I won't share what's mine  
With anybody else  
You're mine, you're mine, oh mine  
Oh mine, oh mine, oh mine

What are we waiting for  
Tell me what are we waiting for  
What are we waiting for  
There's trouble on the dance floor

Someone else has taken what's mine  
Someone else has captured  
Your attention and time  
And your sweetness is your weakness  
Someone else has taken what's mine  
I know what you're thinking'  
By the look in your eye  
Babe, your sweetness is your weakness

Someone else has taken what's mine  
Someone else has captured  
Your attention and time

And your sweetness  
It goes on and on and on and on

Oh..

Babe, your sweetness  
It's grooving, it's grooving  
And perfect and stupid for me  
Your sweetness is your weakness

You just want a sexy bit  
s-e-x

Someone else has taken what's mine  
Someone else has captured  
Your attention and time  
And your sweetness is your weakness  
Someone else has taken what's mine  
I know what you're thinking'  
By the look in your eye  
Babe, your sweetness is your weakness

Someone else has taken what's mine  
Someone else has captured  
Your attention and time  
And your sweetness  
It goes on and on and on and on  
Oh...  
Your sweetness is your weakness
