

# Out In The World

dead prez

Now there's two things that's the same  
In every hood, in every ghetto across the world  
And that's struggle, and that's dreams

In my hood, Southside Tallahassee, FL  
I had both of those, still got both of those  
I'ma let you in on somethin' real quick

Let's take it back to the early '90s  
Taleho, Florida is where you'll find me  
'78 Omega automobile I'm driving  
Bass bamblin' with the wind behind me

Hitch from the attic is the name of the crew  
'Coz road shows and hoes that's all we do  
And all three G's believe me, we got that hot shit  
To the point that nigga 'bout to quit on college

Parents upset cause I shat on school  
Beat spot got hot so I'm playin' it cool  
Crew movin' to New York, I'm 22 years old  
My girl's stayin' cause she's scared of the cold

Out in the world (Where you tryin' to make it at)  
Out in the world (Where they tryin' to take it at)  
Out in the world (Where my folk tryin' to get fat)  
Out in the world (And every time get set back)

Out in the world (Where my dawgs at?)  
Out in the world (Uh huh, fo' sho)  
(Where my folk gonna stay strong)  
Out in the world (Let us move on)

Now I'm in the Brook in Decater  
Whole different look, different sound and flavor  
Washin' dishes at the Hotel Four Seasons  
15 an hour, don't plan on leavin'

Homesick, skippin' work every weekend  
Went down, found out my girl was cheatin'  
Heart broke, tired, started freakin'  
Year later terminated for no reason

Got a new girl as the leaves turn brown  
Seein' me stressed said she would hold me down  
Had to move to the Bronx where the crooks be juxin'  
Sold my first track, moved back to Brooklyn

Music 101, the whole game is dirty  
Got me 25, feelin' all of 30  
Went from a lover to straight up hustler  
Stressed a lot, developed clusters

Out in the world(Where you tryin' to make it at)  
Out in the world (Where they tryin' to take it at)  
Out in the world (Where my folk tryin' to get fat)  
Out in the world (And every time get set back)

Out in the world (Where my dawgs at?)  
Out in the world (Uh huh, fo' sho)  
(Where my folk gonna stay strong)  
Out in the world (Let us move on)

2 G, Y2K bug is gone  
Put my gas mask back 'coz them lights is on  
Dead Prez in the stores and the streets is groovin'  
Hi, I'm still broke and my beats is movin'

Gotta grind harder 'coz my bills is major  
Got a cell phone, had to dead the pager  
Can't blame the game 'coz the game don't feed you  
Can't blame the world 'coz the world don't need you

Seem like every excuse I use is see-through  
Help myself first, then help my people  
'Coz folks sells hope, runnin' scams to burn me  
Wash me, comb me, relax and perm me

Gotta get control and stop this car from swerving  
Now I'm kinda cold, only the doe concerns me  
Try to spend less than the amount I'm earnin'  
Lessons everyday I'm learnin'

Out in the world (Where you tryin' to make it at)  
Out in the world (Where they tryin' to take it at)  
Out in the world (Where my folk tryin' to get fat)  
Out in the world (And every time get set back)  
Out in the world (Where my dawgs at?)  
Out in the world (Uh huh, fo' sho)  
(Where my folk gonna stay strong)  
Out in the world (Let us move on)
