

## The Time Is Not Endless

## Dead Silence Hides My Cries

Your time has passed  
It's your demise  
Your life is flashed  
Before your eyes

Through dimmest light  
You try to see  
Time of the past  
You become free

What's pain inside?  
That makes you weak  
What memories  
Have made you sick

Time will destroy  
Chance to exist  
Make your last breath  
And don't resist

Time is ruthless  
This is prison  
In which we are  
Locked forever

Time it rules us  
Time it kills us
