

Kingdom Of The Dead

DeadLock

kingdom of the dead. world breaks apart. thunder spreads across the lands.

Now we've come here to kill you and we won't leave until you died.

In your blood we kneel emotionless we'll watch your end.

Now we've come here to kill you and we won't leave until you died.

Soon you will be king in your kingdom of the dead...

endless torture laments of fear no mourning your kingdom's near

While the earth is crying mankind's slowly dying we stand in the ruins of civilization

Mankind's slowly dying we spit on your grave the kingdom of the dead.
