My Pain

DeadLock

Night fades to day
And days fade to darkness
Please, let me out of here
I'm trapped in nothingness

Seems like this time is right to dry all of the tears - That I have cried

But I'm too weak - I feel so numb and isolated from everyone A single tear escapes my eye - I cure my pain with a razor blad e

Days have passed - Years gone by - Dreams torn apart My cheating mind attempts to kill my aching heart

Seems like this time is right to dry all of the tears - That I have cried

But I'm too weak - I feel so numb and isolated from everyone A single tear escapes my eye - I cure my pain with a razor blad e

I cure my pain with a razor blade!

Seems like this time is right to dry all of the tears - That I have cried

But I'm too weak - I feel so numb and isolated from everyone...

Seems like this time is right to dry all of the tears - That I have cried

But I'm too weak - I feel so numb and isolated from everyone A single tear escapes my eye - I cure my pain with a razor blad e!
