

With A Smile On My Face

DeadLock

With the three means of punishment words thoughts and acts ya s
hall not injure living things.

But what happens every day we lead thousands of creatures to th
e slaughter it is like the entrance in hell.

My thoughts gave my actions a battle and that's why I am here.

To give another battle to the ones who destroy the creation.

With humility I fall to my knees and pray for forgiveness.

But the immortal souls of the dead give rise to a demon.

That demon and his army of undead warriors prepare for reprisal

.

And they will beat us with our own weapons.

Which means harm cruelty and death.

But we shall not cry we deserve to be punished.

And I will die with a smile on my face
