

# One Trick Pony

deadmau5

Pump the brakes,  
You're a red-flag, red light  
Holdin' up a stop sign  
I'll never be sloppy seconds

Go ahead, take them back,  
Your one, two, three minutes  
All you do is take, take,  
Takin' off the little

Got more goin' on  
I'd rather be eating glass,  
Stick hot needles in my eyes,  
Go ahead and tap that ass

Draw them up,  
Yeah like there's candy girl  
I ain't tryin'a connect  
Or paint a picture

I'm not in it, never will be  
You can't be me, get your freak on,  
You can suck it, they've all seen it  
And you liked it, now who wants it?  
Cotton candy sugar high

Break your bones  
When you come down  
You're a one trick,  
My trick pony who's next to hop on  
Ride, ride, ride

'Bout to bring a blood spill  
We've both been there,  
What's the next stop? I won't sit still

Back to bring up what's real  
We've both been there  
What's the next stop? I won't sit still
