## **One Trick Pony**

## deadmau5

Pump the brakes, You're a red-flag, red light Holdin' up a stop sign I'll never be sloppy seconds

Go ahead, take them back, Your one, two, three minutes All you do is take, take, Takin' off the little

Got more goin' on I'd rather be eating glass, Stick hot needles in my eyes, Go ahead and tap that ass

Draw them up, Yeah like there's candy girl I ain't tryin'a connect Or paint a picture

I'm not in it, never will be You can't be me, get your freak on, You can suck it, they've all seen it And you liked it, now who wants it? Cotton candy sugar high

Break your bones
When you come down
You're a one trick,
My trick pony who's next to hop on
Ride, ride, ride

'Bout to bring a blood spill We've both been there, What's the next stop? I won't sit still

Back to bring up what's real We've both been there What's the next stop? I won't sit still
