

# Breathe For Me

Deadstar Assembly

Listen to  
Listen to me  
I need you  
A disaster's waiting to happen  
These are the things I can't see through  
When I'm saddened

It's not me  
It's not me  
Just give me some room to breathe  
Or breathe for me  
Breathe for me

Is this what it's about  
I've reached for the strength to hold out  
I'm leaving  
The tears keep burning my eyes  
And I have lost the strength to keep this alive

It's not me  
It's not me  
Just give me some room to breathe  
Or breathe for me  
Breathe for me  
Breathe for me

I can't explain what I feel  
But I know it's for real  
Don't let me go back down

It's not me  
It's not me  
Just give me some room to breathe  
Or breathe for me  
Its not me  
Its not me  
Just give me some room to breathe  
Or breathe for me  
Or breathe for me
