

I Guess I'll Be Leaving Soon

Deaf Havana

Yeah we sure as hell got it going on
and we sure as hell know all about it
I've yet to see the bad side
but I've been told it's there
but I don't ever feel like giving this up just yet
and to say I'm a scared is a safe bet,
and I wont let you forget
but I don't feel like ever giving this up just yet
I'm not giving up, I'm not giving up

but our knees are bruised
and our hips are fused
if we forget about it
then we could carry on without it

just look at the history on the wall
we need to just rub it out and let it fall
'cause this isn't going anywhere
break a box, and stare out away from here
don't be giving up quite just yet
there's a corner to be cut, I wont let you forget
but I don't feel like ever giving this up just yet
I'm not giving up, I'm not giving up

but our knees are bruised
and our hips are fused
if we forget about it
then we could carry on without it

just keep on saying and saying and saying
and we'll keep praying and praying and praying
that you're not forgetting about us
after all it's gonna just be lust

we're gonna need to lie
just take a left into the next riverbed

we're gonna need to lie this time
we'll be fine as long as we don't cross no line

but our knees are bruised
and our hips are fused
if we forget about it
then we could carry on without it
