

Leeches

Deaf Havana

You started staring at the walls again
And the pictures turned back into empty frames
Your sense will go before your looks will leave you
And in time the ones you love will all leave too

No dreams are not how they seemed back when you were young
You lost your way and you couldn't overcome
The times you'd hide, what's been building up inside
'Cause dreams aren't how they seemed when you were young

And I followed you for miles through foreign sights
To the hose where all your demons came to life
And I saw fear and innocence on children's eyes
Then your face changed and I ran back into the night

No dreams are not how they seemed back when you were young
You lost your way and you couldn't overcome
The times you'd hide, what's been building up inside
'Cause dreams aren't how they seemed when you were young

I saw the colours drained from your veins, through the teeth of
leeches

No dreams are not how they seemed back when you were young
You lost your way and you couldn't overcome
The times you'd hide, what's been building up inside
'Cause dreams aren't how they seemed when you were young

No they're not what they used to be
