

This Town Is Ours

Deaf Havana

I'm gonna tell you right now
We're gonna make it in this town
And when our eyes are heavy
We're gonna keep it steady
All our sights are set on the above
When the push comes to the shove
We have such divine inhibitions
I'm gonna tell you and you will listen

And for what it's worth
It sure as hell ain't worth a lot

We're gonna keep sleeping on these rooftops
And you'll never get us down, and you'll never get me down
We're gonna keep singing all our own songs
And you'll never get us down, and you'll never get me down

We're gonna stay like this forever
Because the more friends that you have the better
I'm gonna let you know the whole truth
That it ain't worth nothing without the proof
Your face was all so terribly priceless
And i'm ever so sorry I missed this
I know you didn't mean it
But ill settle for a smile as long as you clean it

And for what its worth
It sure as hell ain't worth a lot

We're gonna keep sleeping on these rooftops
And you'll never get us down, and you'll never get me down
We're gonna keep singing all our own songs
And you'll never get us down, and you'll never get me down
We'll keep singing all our own songs

We're gonna keep sleeping on these rooftops
And you'll never get us down, and you'll never get me down
We're gonna keep singing all our own songs
And you'll never get us down, and you'll never get me down
