

# Sunday Drive

Dean Brody

Everybody needs some sun sometimes  
A little Sunday drive  
To light up their world of grey  
So come on darlin' hop up in my truck  
Lets take her for a run  
Till we feel a little change

[Chorus]

We'll find a Coke machine  
Roadside motel for gasoline  
I'll check the oil while you laugh at me  
I get crazy cause I love to see you smile  
What you do to me  
Is still what you did at seventeen  
We made all of those memories  
On a country road back in time  
On a good ol' fashioned Sunday drive

Surfin' heat waves  
We'll find that rusted sign  
On highway 55  
Broken asphalt and a dead end  
ghost town drive in  
Parked beneath the burned out light  
Take a hammer and some ice  
And I'll make you snow cones on my truck bed

[Chorus]

We'll find a Coke machine  
Roadside motel for gasoline  
I'll check the oil while you laugh at me  
I get crazy cause I love to see you smile  
What you do to me  
Is still what you did at seventeen  
We made all of those memories  
On a country road back in time  
On a good ol' fashioned Sunday drive

We'll find a Coke machine  
Roadside motel for gasoline  
I'll check the oil while you laugh at me  
I get crazy cause I love your pretty smile  
What you do to me  
Is still what you did at seventeen  
We made all of those memories  
On a country road back in time  
On a good ol' fashioned Sunday drive
