## Unforgettable

**Dean Geyer** 

With Caitlin Stasey

You were always there Why did they take you away I was never scared In your arms I felt invincible

Wanted you to see, the world beneath my feet I wish that you could stay I would tell you; you're unbelievable

And I want you to know You're who I wanna be And I'll sing with everything I have inside of me You're always in my heart There's no letting go You gotta know You're unforgettable

They say I've got your eyes Still it's so much to see I couldn't even say goodbye 'Cause you were taken without Even letting go This crimson runs through my veins It's your life You're the energy

And I want you to know You're who I wanna be And I'll sing with everything I have inside of me You're always in my heart There's no letting go You gotta know

I just need to hear you speak Hold onto my hand There's nothing in between us I know you're thinking of me You'll be there when I reach

And I want you to know You're who I wanna be And I'll sing with everything I have inside of me You're always in my heart There's no letting go You gotta know You gotta know

And I want you to know You're who I wanna be And I'll sing with everything I have inside of me You're always in my heart There's no letting go You gotta know You're unforgettable You're unforgettable You're unforgettable
