

## Do You Believe This Town

Dean Martin

The woman next door has gone to the PTA  
And stopped to see her best friend's husband on the way  
The folks down the street have a different thing  
So everyone is putting them down  
Do you believe this town?

Deacon Jones preaches brotherly love every Sunday  
And forecloses loans on widow's homes every Monday  
But the smart guys say it's the only way  
To keep the economy sound  
Do you believe this town?

Do you believe they voted this town dry?  
Well you won't believe it when I tell you why  
The mayor and his cousin and the chief of police  
have the bootlegging all nailed down  
Do you believe this town?

Do you believe they burned a house down yesterday  
You won't believe the reason that they gave  
If the folks who lived there had a known their place  
They could still be hanging around  
Do you believe this town?

Do you believe this town?
