

# Magic Is the Moonlight

Dean Martin

Magic is the moonlight  
On this lover's June night  
As I see the moonlight  
Shining in your eyes.

And this is the power  
In this moonlit hour  
Love begin to flower  
This is paradise.

Living in the splendor  
Of your kiss so tender  
Make my heart surrender  
To your love divine.

Magic is the moonlight  
More than any June night  
Magic is the moonlight  
For it made you mine...
