Party Dolls and Wine

Dean Martin

Neon lights barroom bands hotel rooms one night stands When it's party time you'll find me at the head of the line Midnight cowboy singing his song to every girl who comes along My life's made up of party dolls and wine

Party dolls and wine yeah drink and let the good times roll Party dolls and wine making mem'ries for the days when I grow o ld

They say that someday I'll meet my match but until that time do wn the hatch

With that bubbling sparkling tantalizing fruit of the vine I know someday I'll be put in my place but I'll die happy with a smile on my face

Remembering all those party dolls and wine

Party dolls and wine yeah drink and let the good times roll...

Midnight cowboy singing his song to every girl who comes along My life's made up of party dolls and wine

Party dolls and wine yeah drink and let the good times roll... Party dolls and wine yeah drink and let the good times roll...
