

## Sweet, Sweet Lovable You

Dean Martin

I thought that I'd love before but now I can tell ye  
I've never lost until I have ye  
I'll never leave sweet sweet lovable you  
You make me so happy  
True love is here you'll never be lonely  
Forget your fears cause I love you only  
I'll never leave sweet sweet lovable you  
I may look around and tease me another ah once in a while  
But you're only dear I'll hurry right home  
Cause I love your smile you're just my style  
How could I ever think of another now that I found love so true  
I'll never leave sweet sweet lovable you  
I'll never leave sweet sweet lovable you  
You make me so happy  
I'll never leave sweet sweet lovable you  
I may look around...
