When You Pretend

Dean Martin

Although you're stuck with Dean's there's money in your jeans When you pretend The wolf that's at your door is not there anymore When you pretend

Ah there's nothing you can't be Just wish and see Why the world's your cup of tea Some dish says me

The happiness you find is all a state of mind That's true my friend And life is filled with happy endings When you pretend

There's nothing you can't be Just wish and see The world's your cup of tea Some dish says me

Ah the happiness you find is all a state of mind That's true my friend And life is filled with happy endings When you pretend
