

## Boogie Woogie Santa

Deana Carter

I was eight years old one Christmas Eve  
I heard a great big bang in our chimney  
I snuck down the stairs and peaked around the door  
Our living room was a dance floor

Saw Santa boogie woogie Christmas night  
That tinsel on our Christmas tree turned into neon lights  
He was shaking his suit from side to side  
I could not believe my eyes  
Santa boogie woogie Christmas night

All at once his fingers started to snap  
And that jolly old man put down his bag  
He was doing the swim and clapping his hands  
He transformed into a moon walking man

Santa boogie woogie Christmas night  
(Boogie woogie, Santa boogie woogie)  
That tinsel on our Christmas tree turned into neon lights  
He was shaking his suit from side to side  
I could not believe my eyes  
Santa boogie woogie Christmas night

I heard the elves say  
"Santa, we've got work to do"  
"Chill out, man, I'm busting a move"  
"What about all the other kids"  
"Ho ho, ho ho, you're right, we better go"

I saw Santa boogie woogie Christmas night  
That tinsel on our Christmas tree turned into neon lights  
He was shaking his suit from side to side  
I could not believe my eyes

Santa boogie woogie Christmas  
Man, I wish my friends could see this  
Santa boogie woogie Christmas night

Ho ho, ho ho, ho  
Ho ho, ho ho  
Yeah, Rudy  
Now we're cooking
