

Michelangelo Sky

Deana Carter

We fell in love underneath a Michelangelo sky
We saw the same things in the shapes of the clouds rolling by
A blanket of leaves and the soft summer wind
Feeling the heat of the sun on our skin
That's when I learned how to fly
One kiss and you painted a picture of heaven
It's there when I look in your eyes
I swear I can see forever
Underneath a Michelangelo sky

One kiss and you painted a picture of heaven
It's there when I look in your eyes
I swear I can see forever
Underneath a Michelangelo sky

Until that day I was living in black and white
The touch of your hand brings all these colors to life
I get the feeling this feeling won't fade
Here in your arms I get carried away
Back to the very first time

One kiss and you painted a picture of heaven
It's there when I look in your eyes
I swear I can see forever
Underneath a Michelangelo sky

One kiss and you painted a picture of heaven
It's there when I look in your eyes
I swear I can see forever
Underneath a Michelangelo sky

One kiss and you painted a picture of heaven
It's there when I look in your eyes
I swear I can see forever
Underneath a Michelangelo sky
