## **Michelangelo Sky**

## **Deana Carter**

We fell in love underneath a Michelangelo sky We saw the same things in the shapes of the clouds rolling by A blanket of leaves and the soft summer wind Feeling the heat of the sun on our skin That's when I learned how to fly One kiss and you painted a picture of heaven It's there when I look in your eyes I swear I can see forever Underneath a Michelangelo sky

One kiss and you painted a picture of heaven It's there when I look in your eyes I swear I can see forever Underneath a Michelangelo sky

Until that day I was living in black and white The touch of your hand brings all these colors to life I get the feeling this feeling won't fade Here in your arms I get carried away Back to the very first time

One kiss and you painted a picture of heaven It's there when I look in your eyes I swear I can see forever Underneath a Michelangelo sky
