

# People Miss Planes

Deana Carter

A tear ran down his face  
As she started to leave  
He said, baby, don't do this  
I'm beggin' you please  
What can I say to stop you  
From walkin' out on us  
I'll do anything to save our love

She said I'm through with talkin'  
You know I've tried my best  
I gotta leave right now  
I've got a plane to catch  
And he said

People miss planes  
It happens all the time  
They cancel their plans  
They change their minds  
Listen to your heart  
Before you go too far  
Baby, turn around  
Before it's too late  
People miss planes

She made it to the airport  
In the nick of time  
In a moment she'd be gone  
Yeah, she'd board that flight  
She'd fly away from trouble  
From the struggles that they had  
And from everything they had shared

A tear fell on her ticket  
As she thought about their love  
In just another minute  
She'd give it all up

Then she heard a voice calling  
Boarding flight 41  
When another voice inside her said  
You don't have to get on

People miss planes  
It happens all the time  
They cancel their plans  
They change their minds  
Listen to your heart  
Before you go too far  
Baby, turn around  
Before it's too late  
People miss planes
