## **People Miss Planes**

## **Deana Carter**

A tear ran down his face As she started to leave He said, baby, don't do this I'm beggin' you please What can I say to stop you From walkin' out on us I'll do anything to save our love

She said I'm through with talkin' You know I've tried my best I gotta leave right now I've got a plane to catch And he said

People miss planes It happens all the time They cancel their plans They change their minds Listen to your heart Before you go too far Baby, turn around Before it's too late People miss planes

She made it to the airport In the nick of time In a moment she'd be gone Yeah, she'd board that flight She'd fly away from trouble From the struggles that they had And from everything they had shared

A tear fell on her ticket As she thought about their love In just another minute She'd give it all up

Then she heard a voice calling Boarding flight 41 When another voice inside her said You don't have to get on

People miss planes It happens all the time They cancel their plans They change their minds Listen to your heart Before you go too far Baby, turn around Before it's too late People miss planes
