

# Thicker Than Blood

Death Angel

Smell you eye you  
How rapid the chase it is on  
Swat you bite you  
Locked on your neck and you're down

I can't believe that you're trying to put up a fight  
Try as you will but you'll never forget this dark night  
Can't you see that to us it's not labor it's love  
(oh no)  
Thicker than blood

Rip you tear you  
Peeling your flesh to the core  
Crave you need you  
Your taste leaves us wanting much more

I can't believe that you're trying to put up a fight  
Try as you will but you'll never forget this dark night  
Can't you see that to us it's not labor it's love  
(oh no)  
Thicker than blood

Chew you eat you  
Savoring every small bite  
Own you crush you  
Night after night after night

I can't believe that you're trying to put up a fight  
Try as you will but you'll never forget this dark night  
Can't you see that to us it's not labor it's love  
(oh no, oh no, oh no)  
Thicker than blood  
Thicker than blood
