

## **Fuck It All**

## **Death Before Dishonor**

I've been thinking it over  
I've been thinking long and hard  
like a knife that's been scraping  
scraping away at my mind  
FUCK IT ALL  
I'm sick of finding excuses  
I'm sick of feeling so down and out  
a brick wall at a dead end  
I'm still trying to smash my way out  
FUCK IT ALL  
I'm still trying to smash my way out  
trying to see past something  
that's not there  
but I will fall again  
I can't see clear  
levelled everything  
that I thought was in my way  
at the end of the dap  
It's just me here standing in my way  
I've been thinking it over  
what the fuck is this all about  
I'm sick of finding excuses  
I'm sick of feeling so down and out
