## **Never Again**

## **Death Before Dishonor**

Looking back to the day it went down I felt it coming there was no doubt Built up it's just too much of the bullshit I just can't add up

I know your mind games and I can feel the strain but it won't phase me Because I've seen it all and felt it all I realize there's no such thing as hope

You made me make a choice That I had to make Now I know you're not true It's time not to care so fuck you

I'll never know the truth so fuck you You - you're the one - you're to blame Never trust again I'm scarred for life Believe the untold future

You never know what lies ahead Tell me all the shit that you feel Light a flame to it your shit ain't real I will never love again

Burned by your greed I see right through your tactics I will never love again Never trust in you again

Looking back to the day it went down I felt it coming there was no doubt Built up it's just too much of the bullshit I just can't add up

I know your mind games and I can feel the strain but it won't phase me Because I've seen it all and I felt it all I realize there's no such thing as hope
