

# Entombed We Collide

Death By Stereo

Hands tied; crucified, lost, found, entombed we collide.  
Black whole, my brain,  
Focus, insane,  
Left out, betrayed,  
Your hole, my vane,  
I can't sustain, for much longer,  
Without your pain, makes me stronger  
Sandpaper licking my wounds, I want more, make me hate myself!

Ice cold, disown, sickened now,  
I can't die in this balloon, suffocating,  
This world, disown, sickened now,  
and now I'm breaking free

I can't feel with this fucking insane,  
I can't feel with you fucking my brain,  
I can't feel unless you pushed from inside,  
I caress then crush, hope and the light,  
I will burn this book, shove it inside,  
Shove it up my ass, spit out your pride,  
I can't think, I'm just fucking instead,  
Somebody slit my throat, D.B.S!  
Sandpaper licking my wounds,  
I want more, make me hate myself!

Ice cold, disown, sickened now,  
I can't die in this balloon, suffocating,  
This world, disown, sickened now,  
and now I'm breaking free

Ice cold, fit the mould, crushing me,  
I'm breaking free,  
I can't die in this balloon,  
Blood!  
I wasn't born from this womb,  
Pain!  
This world, crushing me alive,  
Cum!  
My will is stone, my hope won't die,  
Blood, pain, cum, insane,  
Blood pain, cum, the same

I collide, consumed inside,  
This hate, this life, then we slide,  
Entombed inside we collide,  
I collide, then it dies

Ice cold, disown, sickened now,  
I can't die in this balloon, suffocating,  
This world, disown, sickened now,  
and now I'm breaking free  
Breaking free
