

We Don't Sleep at Night

Death from Above 1979

Sell all your shit
Get on a plane
And you can fly away

Every time that you are asked to talk
All that you've got to say is
My love is right it tells me what to do
Take my advice and sell all your shit too

My love is right it tells me what to do
Take my advice and sell all your shit too
My love is right it tells me what to do
Take my advice and sell all your shit too

We don't sleep at night
We don't sleep at all

We don't sleep at night
We don't sleep at night

Sell all your shit
Get on a plane
And you can fly away

My love is right it tells me what to do
Take my advice and sell all your shit too

My love is right it tells me what to do
Take my advice and sell all your shit too
