Push me harder push me push me swang into tomorrow

Gawk as I thread this loch ness slipstream sepsis  
Subconscious up f twitch asterisk see off my meds glitch  
Thoughts squealin through my mildew watch my back or I'll kill

Schizo superscript scan the voice imprint only I can hear you  
Deserted mansion in my head half-lidded lanterns returnin'  
Sclera scarlet as wall of virgin bombed by flask of bourbon  
Can't be certain  
Your intercom I'm fingering you don't wanna but you buzz me in

My moods live on that swing same  
Push me harder push me push me swang into tomorrow

Nathan perculatin' proper  
Caiman propellers comin' off she's hella copter  
My neck bone sprayin' guava  
Shimmy snakin' status caved in mental state been shanked and so

I got the nasty in my taxi you need a lift  
You can sit between the backseat and my dick  
If the law catch me in the act and I happen ta die today  
Push one my swing out in a glass of purple rain  
Candy painted by the lord of stainless steel liquid your ashy b

I got that feeling zero feeling  
Can't stop stealing zeros killing all your millions  
Somebody kill me somebody killed me  
I got that feeling zero feeling  
Can't stop stealing zeros killing all your millions
