## Death Grips

My proper voila shadow candle  
My shadow stigmata often  
Left, right, up, step right up  
Get your crisis why bother  
Crack light priest wind fire dog  
Melon impetered cellophane  
Arms long as their legs  
Even the greys can't  
Oh

Voila

Maybe I belong to you  
I'm sure you want me to  
My shadow's onto you  
Voila, voila  
I can't make you like voila  
I'll make you love voila  
Make you make love to voila
