

World Of Dogs

Death Grips

Its all suicide
World of dogs

Ruthless and free
It's all suicide to me
World of dogs

Its all suicide

You live in hiding
You're climbing the walls no privacy
I'm trying to survive but I'm dying die with me
Blow out the lights take your life
Ride the falling sky with me
Falling inside of me
Its all suicide to me
World of dogs

Its all suicide
World of dogs gone mad
Above the law in your ass
Fire trash meltdown I'm not here
I'm world of dogs infrared
Tear me apart left for dead
But I'm not dead yet
Sickem sickem yes

World of dogs

Ruthless and free
Its all suicide to me
Cut it
Don't tell no one no one can know come closer
I'm almost over lower sinkholer
I'm nothing feed me to this world of dogs
Barely breathing in this world of dogs
Foam of feral reality forming on mountains of teeth
Devour the hand spit out the leash
Crown the beast my thrones the street
Too cold to sleep I kill myself I feel no pain
I'm obsolete
World of dogs
