

Help Yourself

Death in Vegas

You can't change without someone's shadow
'Cuz then it's gone
when you still shine
You can't change to solve somebody's name
Don't blink until you're made

When all destroyed, broke all in Hell,
and you don't need what you could steal;
I'm feeling like something I don't know that's wrong
And I know the sad in my heart

Help yourself with
Help yourself with what you need, yeah
Help yourself with
Help yourself with what you need, yeah
Help yourself with
Help yourself with what you need, yeah
Help yourself when
Help yourself when you don't need it
Help yourself

Help yourself with
Help yourself with what you need, yeah
Help yourself with
Help yourself with what you need, yeah

Help yourself with
Help yourself with what you need, yeah
Help yourself when
Help yourself when you don't need it
