## **Help Yourself**

**Death in Vegas** 

You can't change without someone's shadow 'Cuz then it's gone when you still shine You can't change to solve somebody's name Don't blink until you're made When all destroyed, broke all in Hell, and you don't need what you could steal; I'm feeling like something I don't know that's wrong And I know the sad in my heart Help yourself with Help yourself with what you need, yeah Help yourself with Help yourself with what you need, yeah Help yourself with Help yourself with what you need, yeah Help yourself when Help yourself when you don't need it Help yourself Help yourself with

Help yourself with what you need, yeah
Help yourself with
Help yourself with what you need, yeah
[Help Yourself Lyrics on http://www.lyricsmania.com]
Help yourself with
Help yourself with what you need, yeah
Help yourself when
Help yourself when you don't need it
