

## Genetic Reconstruction

### Death

Extending a life with total resistance  
To fatal disease, future methods of science

Replacing what is real by using technology  
Population control, selecting those who will breed  
A specific type of form chosen for the unborn  
A mind without emotion  
Progressive anatomy

Genetic Reconstruction  
Evolution in Production

Producing a race of human machines  
A new age of existence the world will see

Replacing what is real by using technology  
Population control, selecting those who will breed  
A specific type of form chosen for the unborn  
A mind without emotion  
Progressive anatomy

Genetic Reconstruction  
Evolution in Production
