

Genocide and mass murder

DEATHGAZE

It's your own fault. fuck!
You bastard.
Smell a rat, bite off you.
Crouded, weakend by the haze.
Just aim and end you!

You don't need to already cry.
I murder you right now.
Hey! god. get off!
I'm useless geck my head.

Genocide and mass murder.

Let's go to bloody world
And i will go to madness world!

It's your own fault. fuck!
You bastard.
Smell a rat, bite off you.
Crouded, weakend by the haze.
Just aim and end you!

Take head! hey come geek.
Silent screaming, frantic eyes.
Close you eyes as we witness
Another bullet ride!

Genocide and mass murder.

Let's go to bloody world
And i will go to madness world!
