

Drink the Devil's Blood

Deathspell Omega

In the deepest pits of Hell.
I torment souls endlessly.
Shapeless demons are all kings,
But there's only one real ruler here.
I am his faithful disciple,
Possessing humans to bring them under.

I will control all mankind to see them destroying each other.
The poor spirit will burn like all things that is holy.

Burn!

We are the poison of the Earth.
The whore Mary was sodomized.
Her bastard son will rot forever.
We laugh at the fairy tale that is God.

Inverted crosses
Are struck into their heart.
Our Lord Satan
Delivers us from good.
He slashes his veins
To give us his essence.
To my kind it's power,
To the weak it's venom.
We drink the devil's blood
To win the anti-life war,

I will control all mankind to see them destroying each other.
Their poor spirit will burn like all things that is holy...

Burn all that is holy!

Forever we will dwell
Inside each living cell,
Destroying the sacred,
Creating the nothingness.
My cause is supreme
And inexorable.

Drink the Devil's blood!
