

## Division X

## Deathstars

Look those kids are monochrome flesh  
and those little hearts beat like a synchro pulse  
Let that girl present the boy to death  
Oh, how fantastic kids are just like me

We move in circles  
All of us speak of moments  
It's genesis while our world just shy  
When you hear us - breathe

It's Division X  
The machines that lied won't embrace to who you are  
It's Division X  
It's a vision denied

Let them play with the barrels of their toys,  
and the small lies bleed us from guts in their heads  
Look the kids ask for guns for noise  
Oh, how innocent and young and dead

We move in circles  
All of us speak of moments  
It's genesis while our world just shy  
When you hear us - breathe

It's Division X  
The machines that lied won't embrace to who you are  
It's Division X  
It's a vision denied

I never dreamt of the truth, a truth depending on you  
I never dreamt of a god, the god that's close to you  
I never wanted peace, and peace never wanted you  
I never hunger for love, without wanting hatred too

We move in circles  
All of us speak of moments  
It's genesis while our world just shy  
When you hear us...

It's Division X  
It's Division X  
It's Division X  
It's Division X X X X  
It's Division X  
The machines that lied won't embrace to who you are  
It's Division X  
It's a vision denied

... Breathe
