

Oh, human doll - you know I am the one  
Now, broken doll... Now all ethic's gone  
Because I'm the shelter and the knife,  
The infernal tramp and the lies  
And I'm inside you deep  
The greatest tear when you weep  
...The virus in your heart...  
And this is how my name will shine  
And shine again  
Above you child...  
Alight and scarred  
I'll leave you alone in this place  
Enter this world  
I am the one  
This is home  
I am the motherzone  
Enter this world  
I am the one  
Return home  
To the body  
Of the motherzone  
Ge in line, kids - you know I am the one  
Oh, walk away with me...  
Dead daughter and son  
Well, I'm the source and the field  
The shyne scythe that you wield  
And I'll be the drug in your blood,  
The first wave of that flood  
...The D in Darkness...  
Come to me now, little child!  
Motherzone, motherzone, motherzone  
Come to me, you're the first in line!  
Motherzone, motherzone, motherzone  
Come to me...  
Lick me dry
